PRESIDENT'S PAGE

I want to thank Carl Demko and Trevor Payne for co-chairing the Branch picnic. They put much effort in this and it turned out very well. Many hours of planning goes into a function like this and it showed, because things ran very smooth. Thanks again to both of them and their staff for putting on a great time.

As I am writing this we are in negotiations with the Postmaster of Columbus over route adjustments. We are mandated to try and reach an agreement on a way to adjust a route without doing a full blown inspection.

If we do not reach an agreement on route adjustments at this level, it will be appealed to the National and a decision will be made for us. There are a few stickler points with me on route adjustments. We have tried this on our own (adjustment method) the last couple of years. I have learned

from those units where I agreed to do our own adjustments. Some of the units worked after adjustments were implemented, some did not. As most of you know I am not a fan of inspections and never will be. Route inspections are slanted in management's favor, not the carriers. Management is constantly trying to take a minute away from you as a carrier and you are trying to keep it. They need to get away from that mentality. One of the points I am adamant about is the elimination of casing equipment, especially without the carriers input. It is getting harder and harder to throw minimum standards because carriers are throwing flats first into a smaller case. I am referring to the program AM-SOP. If you have not heard about it, don't worry you will. By the time you read next months bulletin an

Rocco
Evangelista

agreement should be reached. The delegates at the National Convention voted overwhelmingly to come up with an agreement to eliminate route inspections. This is what we are working on doing.

The Branch has two other functions coming up. We have the Golf Outing at St. Albans and the Retirees Dinner at Berwick Party House. I hope to see you at both. Remember keep fighting the good fight! ...Rocco Evangelista

BR 78 BRANCH PICNIC WAS A GREAT SUCCESS...

A MESSAGE FROM VICE PRESIDENT BOB SOLT

Intimidation is self-inflicted. We continue to receive telephone calls at the Union Hall from members who describe confrontations they have with supervisors concerning DOIS. The frequent complaints are that management informs Letter Carriers that "DOIS says" they are some ridiculous amount of time under eight hours. There are probably one or two socially and contractually challenged supervisors out there that actually believe their mission in the Postal world is to blindly obey what DOIS commands them to do. As well intentioned as these supervisors almost certainly are they have undoubtedly failed to read or comprehend what was agreed to in pre-arbitration M-01444. This resolution, which was signed by William Young of the NALC and Doug Tulino of the USPS, which in part clarifies that piece counts recorded with DOIS will not constitute the sole basis for discipline. This does not change the principle that, pursuant to Section 242.332 of the M-39, "No carrier shall be disciplined for failure to meet standards, except in cases of unsatisfactory effort which must be

based on documented, unacceptable conduct that led to the Carrier's failure to meet office standards" In other words, stay at the case and do what is supposed to be done. If you are unable to complete your assignment in the time allotted, complete a 3996 to inform management. Management does not need to continually interrogate you after you inform them you will not be able to comply with a DOIS generated performance estimate. If you have been told to call in if you are not going to return on time be sure that you call.

With 2004 being a Presidential Election year, all active and retired Letter Carriers need to be politically educated as well as politically involved. The 2004 Presidential election is extremely important to all active and retired Letter Carriers and their families. At our national convention, the delegates voted practically unanimously to support John Kerry for President. As Unionists, we need to contribute to the NALC's COLCPE. By law, no money from our Union dues may be contributed to political campaigns. The NALC contributes voluntary contributions from members

to candidates of both political parties. The N A L C donates to candidates that support the best interests of Letter Carriers.

I would like to take this opportunity to express thanks to fellow officers Carl Demko and Bobby Kirk for their assistance with the September Stewards meeting. These officers are to be commended for their dedication to Branch 78. The meetings are at 6:30 pm the first Wednesday of each month. The meetings are somewhat informal and are an opportunity for the Stewards to discuss the problems they are experiencing in their stations. All Branch 78 members in good standing are not only invited but also encouraged to attend the Stewards meetings. As always, suggestions and comments are welcomed and encouraged.

Fraternally,

Bob Solt

The Branch 78 Picnic was THE EVENT.

If you missed the Branch 78 Picnic, you missed a great time.....

A MESSAGE FROM YANA

What a blur these last few months have been. Between Red, White & Boom, the basketball

games, the National Convention, Circle of Sisters meetings for the upcoming elections, the Retiree Picnic, the Branch Picnic, the Golf Outing, the Retiree Appreciation Dinner and all the regular Officer and Branch meetings in between; did I mention our Bulletin? No wonder my house looks like Charlie, Frances and Ivan all blew through. Luckily, my better half has been supportive of me through all this. I want to thank all the better halves of the Branch Officers for the patience and indulgence throughout the year, while we work for our Union. We couldn't do it without you and collectively we acknowledge and thank you all.

Unfortunately, I was working during the Retiree Picnic but the consensus was that it turned out great. As usual it would have been better with a bigger turnout but I know the rest of you will join us for the Retiree Appreciation Dinner at the Berwick Party House October 2.

The Branch Picnic was THE event, the weather was excellent. Steward, Andy Curtis' daughters did face painting, games and balloons for the youngsters and kept them engaged throughout the day. Our DJ, Roger Noble, donated his time again this year and played something for everyone. If you need a DJ give this man a call. He said he feels

we (Letter Carriers) are underappreciated and taken for granted and it makes him feel good to do the picnic for us. From his mouth to management, L'Enfant Plaza, Congress and the public's ears. There was plenty of food cooked by Chef Eddie Stewart and his crew. Mike Iacoboni kept the buffet line supplied. Todd Hornyak and Gerald Hoosier baited fishing hooks for the little anglers. Angelina Sutherland and Shelley Demko sold raffle tickets and greeted everyone coming in. There were equestrians of all ages on the pony rides. Carl Demko, Trevor Payne and all the volunteers whose names I didn't mention did a fantastic job planning and pulling off this event. IF YOU DID NOT COME IT WAS YOUR LOSS BECAUSE IT WAS A GREAT TIME!

We are renewing our COESRA membership 2005 cards will be available the end of the year. In this issue is an order form for Cleveland Cavalier tickets, get your orders in quick.

Since it is fall it is time to start collecting for ONE NEW TOY. For the new members and those who have been in limbo; we ask each carrier to bring in or contribute cash to purchase ONE NEW TOY. These are delivered to Gladden Community House for distribution to families on the west side of Columbus. Knowing the dive in the economy, the loss of jobs and funding for social services there are a lot of kids that will not have CHRISTMAS if we don't come through. We are one of the few organizations that don't overlook the teens as we purchase Media Play gift certificates for each of

them. Last year there were seventy and we were a few short so I will guess there will be ninety to a hundred this year to be safe. That is no small sum. So get busy wringing those dollars out of each other. ALL MONEY AND TOYS WILL HAVE TO BE AT THE HALL BY THE DECEMBER MEETING! There will be a drawing for a USA leather jacket, tickets are \$1. or six for \$5. Contact Carl Demko for tickets.

There is only one short month before the election and if you haven't registered your window of opportunity is about to close. Immediately contact the Board of Elections. This is the most important election for middle America. The outcome will determine if there will be a middle class.

Dear Brothers and Sisters

There are a number of things to think about before you go to the polls to vote for the next president of the United States on Nov. 2. Although national security is on all our minds, we've also got to consider the security of our jobs, health care and retirement.

Our economic security has declined since President George W. Bush took office. We have lost more than 1.7 million private-sector jobs. More than 9 million full-time workers have lost their employer provided health insurance.

In Ohio, we have lost 170,00 manufacturing jobs. 50,000 workers have lost their employer provided health insurance. 1,226,000 people are living in poverty.

President Bush has done nothing to address the loss of jobs and health care coverage in this country. He's campaigning on a platform that supports giving tax breaks to companies that move jobs overseas. His health care plan actually will cause more employers to drop health care coverage.

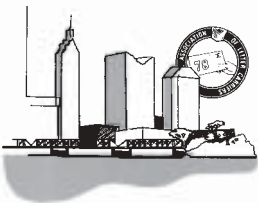

John Kerry has a real plan to bring economic security back to our families. He will support tax incentives for businesses that create and keep U.S. jobs. He has a plan to lower the costs of health care and to provide tax credits to employers that provide health insurance to their workers.

John Kerry knows our national security relies on our economic and military security, and he is the one candidate who can ensure both.

This is an important election, and I encourage you to educate yourself about the issues and go to the polls on Nov. 2. How you decide to vote is your decision. However, after researching the candidates' records, your union has endorsed John Kerry for U.S. president.

Sincerely,

Rocco Evangelista

Be Union, Buy Union, Look for the Union Label

A MESSAGE FROM YANA

continued from page 3

I recently had an email about the Suffragette movement that fought to gain voting rights for women I had no idea they went through physical abuse in their battle. I can relate to the civil rights battles of the 50's and 60's because that was in my time. What I can't understand is the number of African Americans that fail to cast a ballot in every election. This occurred in our life span. The suffering and pain was on television, on newspapers, magazines and radio. This is not ancient history! How can you not use this privilege? Right now the middle class is under siege and if you can't see or haven't felt it I can't imagine where you have been. The body that made the middle class possible was the development of unions and since the Reagan years there has been an ongoing battle to strip unions of power, through loss of rights and jobs. Everyday we read about another plant closing. A company that cannot or will not pay benefits to their retirees because they have spent the money on platinum parachutes for their CEO, CFO and COO whatever the title the working man is getting screwed in the process and the folks in Washington are saying it's okay.

We in the middle class have had good jobs, been able to send our kids to college, have had insurance to help

with medical bills and retirements to depend on when our working days are over. That group of people is getting smaller day by day. The poor and the working poor are growing in numbers and how long before there is no group in the middle?

I hear proponents of the present administration talking about the wonderful tax cuts but I don't hear them talking about how grants for education have decreased or monies for social services have been cut or how much has been taken from the Social Security surplus to pay for those cuts. Lately, there have been commercials on how the present administration is going to do all these things for us that should have been done these last four years but there is no mention on how these things are going to be paid for. The money has to come from somewhere and we all know our federal budget surplus has been decimated into one of the largest deficits ever. You have to pay for programs. There is no magic wand or magic lamp. My guess is more unfunded federal mandates for states that are limping financially already. More like "No Child Left Behind" sure it sounded good but there was nothing to implement it and more children are left behind with no HEADSTART,

no AFTERSCHOOL PROGRAMS and no CHILDCARE assistance for working mothers. Then there's that wonderful prescription program that has seniors paying more for medicines than they paid before.

We are sending billions of dollars to Iraq but it isn't rebuilding the infrastructure we destroyed, it's not providing jobs for the Iraqi unemployed but it is putting billions into the coffers of the Halliburton Corporations and others like it. If Congress could appoint, a Special Counsel to find out if the president was getting a little nookie on the side certainly they should investigate why the unbidded contracts in Iraq are not being fulfilled.

Lastly, have we gone completely stupid to allow the media to tell us that a man who volunteered for military duty and fought in an unpopular war can have his heroism challenged by individuals that did not serve. The fact that he went to Nam gave him the right to criticize that war, to feel bad about what happened there and to speak on it. The bottom line is – he served his country.

**GET TO THE
POLLS AND VOTE
NOVEMBER 2**

ATTENTION

A Carrier at the Eastland Station recently had the misfortune to run over two cats within a three day period, which we believe is a record. The photo shows cat#2. We will not use the carrier's name but the parking position shows he is assigned to route #6 at the Eastland Station.

BRANCH ANNUAL

CH 78 PICNIC

FROM THE NORTH.....

Anyone with questions about where President Bush wants to take this country needed only to listen to his acceptance speech at the Republican National Convention. He stated that times have changed and that years ago it was common for people to keep one job through one's entire working career. Now it is common for a person to have several jobs throughout a lifetime and that he wants to give the American people the power to make their own choices when they go from job to job. These choices would be possible through "ownership" of individually controlled medical insurance plans and pensions. President Bush's plan would allow us to take our medical insurance and pensions from job to job as our career paths changed. In order for this to be possible, working class families would be the sole contributors to these plans. Corporations would no longer offer to pay or contribute to them as has been the norm for decades. These are benefits that were won for working people through negotiations between corporate executives and unions. He also talked about changing overtime laws that would allow working parents to use compensatory time for working more than 8 hours in a day or 40 hours in a week. He envisions more use of flex time to allow parents to spend more quality time with their families. It was obvious to me that President Bush is not a friend of working people. He is more concerned with allowing corporations to maximize profits on worker's backs by weakening union causes. There are more workers in this country than

corporate executives and large business owners. Why then can't we defeat these people when we vote? A lot of us do not bother to vote. A lot of us are motivated to vote conservative Republican because of social issues that have been forced into election issues. Things like abortion, guns, church, etc. In my opinion, god, guns and gays should never be election issues. They are social issues that government has no right to interfere with.

What the election should be about is the encouragement of living wage jobs with benefits in this country. It should be about public schools that have the funding to attract quality teachers to teach in safe buildings that are in safe neighborhoods. Standardized testing is fixing nothing. All teachers do is teach memorization to the test. Math, reading, history, etc. take a back seat when standardized testing is forced upon schools. Republicans preach less government. Let them start right there by dropping forced standardized testing and let teachers teach the basics.

Republicans like to say no American goes without health care in the United States. What about those that cannot afford insurance

and delay getting treatment for some symptoms? What about the people who won't go to a doctor because to do so would mean using money that is needed for something else? Like house payments, utilities or food? A lot of people go without health care in this country because of the very thing President Bush talked about in his acceptance speech. They made choices. They chose not to get care because they could not pay for it.

Finally, the election should be about National Security with a conscience. To continue to occupy Iraq is wrong. There are no terrorists hiding in Iraq. If they were, they are long gone. Let's chase them around the world if we have to, however, to occupy Iraq in the name of a war on terror is a lie. To continue to stay there will only breed future terrorists who will be seeking revenge for what happened to their lives and their country.

Vote your conscience. To me that is living wage jobs, National Security with a conscience, good public schools and affordable health insurance for all Americans.

Randy Hartman

MAKE SURE IT'S SECURE: ROLL-AWAY AND/OR RUNAWAY ACCIDENTS ON THE RISE

Old habits die hard.

Not securing an employee vehicle to avoid a roll-away vehicle seems to be the toughest habit for some folks to break. USPS has experienced 201 such accidents in the first three quarters of this year, roughly one roll-away and/or runaway per delivery a day.

In most cases, the operator established a behavior of not properly securing the vehicle and had the behavior reinforced countless times when nothing bad happened. Then one day—BOOM!—the operator experiences the roll-away and/or runaway. They may have been in a hurry or taking a shortcut, but for whatever reason, they didn't properly secure their vehicle before exiting.

These types of motor vehicle accidents injure employees, customers, damage vehicles and private property. Unattended USPS vehicles have struck parked vehicles along streets, homes, businesses, trees, moving private vehicles in streets and intersections, and have even ended up in a backyard pool.

USPS requirements for properly securing a vehicle have been around for a long time and are stressed in employee driver training programs, employee safety talks and are corrected during driver observations.

And if you think it's just the new employee making a rookie mistake, think again. This type of accident occurs across the spectrum—from the new driver with less than one-month service to the professional driver with 30-plus years.

Below are the proper requirements for securing a vehicle:

- Place the gear selector in "Park"
- Curb an/or turn the wheels to minimize vehicle travel distance should any of the above steps fail to keep vehicle from rolling and/or running away
- Turn off the engine.
- Remove the Key.

This fall promises to be a very busy time for NALC members.

We are still hopeful that Postal Reform will get to the floor of the House and Senate but the chances of that have slimmed somewhat.

We also have a Presidential election that is very important to Letter Carriers and all working middle class families.

The NALC, in convention, endorsed the candidacy of John Kerry and John Edwards. It is now our job to register voters and to influence our friend, families, and co-workers to vote **KERRY/EDWARDS**.

Ohio is considered a battle ground state and it is my opinion that whichever candidate wins the State of Ohio will be the next President.

Whether you are in Ohio or New York, this fall's election should be a priority.

Senator Kerry's performance at the Democratic Convention should have ended any doubts about his ability to lead.

Seeing his wartime crew standing behind him on the stage spoke volumes to me. As a U.S. Air Force veteran, I am excited about the possibility of having a veteran and a man of the caliber of John Kerry as our President.

President Bush has said that he is running on his record and that also pleases me.

His record consists of 3,000,000 jobs lost (many of them in Ohio), the highest deficit in history, and nearly 4,000 American citizens killed on his watch. If I were him, I would be running away from my record.

VOTE KERRY ON NOVEMBER 2, 2004.

Bill Cooke
