PRESIDENT'S PAGE

Accidents are still the hot topic. There has been much focus placed on safety within the last few months. You have and will continue to see many faces doing street observations, monitoring your work and delivery habits. Once again I am asking you to do your job professionally. Do not take any unwarranted shortcuts which could place you in jeopardy. Let me give you an example: you have a street that is solid ice, I know that you want to provide the service the customer is entitled to but if you drive down the street it (it may be on a steep hill or cars parked on both sides) an accident could happen. Call your manager or supervisor; let them make the decision on what you should do. I know I will be criticized for that statement but this Union is also the one that will defend you when discipline is issued. If you are in a situation that can lead to a potential hazard, **let management make the decision on what you should do.** Place the burden on them. Personally I never want to see a letter carrier curtail mail but in certain situations it is a necessity. Let's call it protection, your protection.

If you get out of your vehicle please make sure it is turned off, the brake always set and from now on if you walk away from it, lock it. Do not leave the keys in the vehicle if you are out of the seat. I know this is a variation from what we have done in the past but from now on please make every effort to do so. Safety is and should always be at the forefront, not only for your protection but of the protection of the public.

The branch elections are over and I appreciate the chance to serve as President another term for this great organization. I am not going to say I am going to do this and that because I know better. I will say I am not perfect and have made some mistakes. I have learned from those mistakes and you move on. I do not profess to know everything there is to know. I learn something new everyday. You take what you learn and you try to apply it in the everyday application of what matters. What matters in this case is the letter carrier. The one thing I have learned is it takes an organization as a whole to make a change. If we had all letter carriers follow the contract and stick together we could make a huge

Rocco
Evangelista

difference. Back your brother/sister letter carrier up, help your Union Steward. Things like that can make a difference in the workplace.

The downside of an election is sometimes it harbors ill feelings. To the people who ran and were not elected, I ask you to stay involved, come to the meetings and participate. As a whole we can make a difference, divided we will fall. That adage has been well proven over the years. We lost a very good officer in this election in Randy Hartman. He has the passion and drive to make a difference in this branch. He has represented his people well both at his office and at the branch level. Knowing Randy the way I do the fire is still there.

Continued on page 5

A MESSAGE FROM VICE PRESIDENT BOB SOLT

I want to thank the members, Union Stewards and Officers for the support extended to me and consequently allowing me the privilege of being re-elected to the office of Branch 78 Vice President. Branch President Rocco

Bob Solt

Evangelista and I will need the assistance of all Branch members to continue the success of Branch 78. The coming years will bring many changes to the Letter Carriers job, as we know them today. We will face a magnitude of not only changes but challenges from the Postal Service as well. Branch 78 was founded in 1890. United, we will continue this long triumphant tradition and we will prevail as a pro-active Labor Union that is dedicated to the betterment of all its members. As always, I encourage the participation from the membership. Open communication is a necessity for our Branch's success. We have our Stewards meeting the first Wednesday of each month at 6:30 pm. All Branch members are invited to attend.

As a Branch of the National Association of Letter Carriers we were fortunate to have several members seeking election to our assortment of Branch offices. These members are to be commended for their dedication and eagerness to serve our Branch. Fortunately, we are a Union that is mandated to the principal of one person, one vote. Unfortunately, not everyone could be elected. The election is over and the membership has spoken. As progressive Unionists we need to set aside our individual Branch

politics and fully support our democratically elected officers.

Some of the candidates mentioned ways to eliminate any and all problems that a Letter Carrier encounters on a daily basis. For the betterment of the Branch we need to have these candidates follow all the way through and share this unexplained insight as to how these problems can be resolved. These unexplained universal remedies for the Letter Carriers problems should not be withheld until October of 2008. We have monthly meetings throughout the year, not just in proximity to our Branch elections.

We continue to receive calls regarding management harassing Carriers about DOIS office projections. If you feel you are unable to complete your assignment in the allotted time, complete a 3996. If you are instructed to call in from the street if you will be late, call in by the time you are told to call. This will give management the opportunity to send auxiliary assistance out to you or advise you as to what you should do with the mail. Management can send help to you, instruct you to work overtime

or return the mail to the office. This is their decision to make, do not make the decision on your own. When dealing with a socially and contractually challenged supervisor any decision that you make will without doubt be the wrong one. More likely than not, discipline will rapidly follow. If you feel you are being harassed, seek advice from your Union Steward and if the situation is not resolved to your satisfaction file a grievance immediately.

Safety awareness and finding alleged infractions seem to be management's top priority. Street observation seems to be at an all time high. If you are unsure about anything regarding driving and safety issues discuss the concerns with your Union Steward and management representative. Do not let management place you into a situation that requires you to be careless with safety so that you are able to return at the time they want you to return. Take the time necessary to perform the job safely.

Our Branch's strength is derived from our unity and perseverance. We need the active participation of all members.

*Fraternally,
Bob Solt*

MEMBERS OF BRANCH 78

If you have something to share with us. Please send us your article before the 1st Wed of each month.

MILLER'S MUSINGS

Happy New Year! May good health and prosperity be yours. The Branch Officers will be installed at this months meeting. They will be ready to serve the needs of the Branch over the next three years. One New Toy had an outstanding year in spite of our early delivery.

It eludes me as to how many years we have directed our One New Toy program toward the residents serviced by Gladden Community House probably ten years or more. The woman in charge of the Christmas Program, Helen Evans, was a joy to work with in coordinating needs and delivery. Last year 2004 Helen told us it would probably be her last year as the Director was retiring and she was too old to go through the transition of new management. November Helen called to give me the new Christmas coordinator's name before she gave her my number. When Marty Siriaco contacted me she informed me she was the new contact person and she didn't know what we had done in the past even though she has been at Gladden fifteen years. I explained we have had three LLVs of toys the last

Media Play gift cards for the teens. She quickly informed me that they didn't need three truckloads of toys. We only need maybe fifty toys but you can get the gift cards. I was a little taken back and asked how many teens they anticipated. One hundred seventy she replied. She went on to say they had started last year having their families sign up with the Firefighters and it worked quite well. There were always a few families that missed the sign up deadline or fell through the cracks for whatever reason so they would still need a few toys. Seems the Firefighters only cover teens if there is a younger child in the family so we could take care of the other teens. It wasn't the request or refusal of toys as much as her tone which I cannot duplicate for you on paper but I just wasn't enthused with her at all. I relayed this information to our Executive Board and suggested we find another organization to work with after this year.

Rocco suggested after the first of the year to make an appointment, talk with the new Director find out where they're headed then decide. I was going to tell her when we made the delivery to start looking for another Santa.

We had an outstanding response from our membership this year in toys and money. There were a number of Special Elves that donated from \$25 to \$250 and one Elf brought five bikes to his Steward. I didn't witness this personally but was told Andy Curtis drove his compact car to the Hall and

started extricating bikes like a clown out of a mini circus car. My witnesses were in such amazement they failed

to capture this Polaroid moment. Brother Ray Mitchell's Corvair Club enthusiasts assisted with a large cache of toys and as always we appreciate their participation in One New Toy.

Since toys were not needed like before shopping night consisted of the Head Elf, Tom Wilson and I invading Media Play for gift cards. I asked for the manager and explained to Bob that we wanted to purchase one hundred seventy gift cards, would he like to set aside a register for us and did he have that many available. Went on to explain ONT and since we were making such a sizeable cash purchase

Continued on page 4

Yana Miller, Rocco Evangelista, Tom Wilson, Bob Solt and Marty Siriaco of Gladden Community House.

several years and gave her the planned delivery date for this year and that we also purchased twenty dollar

MILLER'S MUSINGS *Continued from page3*

would he like to kick a couple complementary gift cards. He pondered the request for a while then responded corporate had to authorize that but he had some toys marked 25% off and we could have an additional 50% off and pick \$40 worth. We found a nice assortment of items and were ready to pay for any additional when Bob said you've got \$70 here but how about we write it off. Thank you, Bob! I was angry I never asked before. Then found out a few days later they're closing all their stores mid January.

December 7 Rocco, Bob, Tom and I went to Gladden with fifty toys for a variety of ages and a bag of gift cards. I called Helen's old number to have them open the garage and Helen answered and came down to greet us with hugs and Christmas wishes and rushed out just as quickly. Enter the new person, Marty. She accepted the toys and gift cards, participated in the obligatory photo op and thanked us with the warmth of Ebenezer Scrooge before the ghosts visited him. As we were leaving Tom wished her Merry Christmas and she replied, "Oh, yeah, Merry Christmas."

I was both relieved and saddened

that she showed the same countenance she had conveyed during our phone introduction. I can't repeat what the fellas take on her was in our bulletin. Let's just say she didn't exude any warm fuzzy holiday feelings. We had quite a few toys left that needed children and some money to spend so Tom and I went to the Y Family Center that provides temporary shelter for homeless families. We were introduced Michael Brennan and his assistant Maggie. We explained our plight and asked if they needed some toys. I handed him my camera with pictures of our meeting room loaded with our "leftovers" he lit up like a Christmas tree and gave a resounding we'd love to have your donation. When do you want us to pick them up and where? He wanted to come to our Hall and personally thank our membership, tell the about the Center and perhaps have establish a partnership that extended beyond the Christmas holiday. Here was the enthusiasm we should have had this morning at Gladden. We scheduled a pick up date and returned to the Hall to recount our trip.

I had heard radio spots about Franklin County Children's Services needing assistance in meeting their goals for the children in their care. Since Westland had played such a big part in this year's success and they had

Rocco Evangelista, Maggie & Michael Brennan from Y Family Center & Bob Solt.

mentioned FCCS when I reported on Gladden's request.

Rocco, Tom, Todd Hornyak and I took a load of toys and \$500 to their collection place near Franklin County stadium. It was the end of the day but the ladies were elated with the Branch's donation and wished us a happy holiday after a few pictures.

The following week Michael and Maggie brought a large van and picked up the promised toys and thanked us with every load. They were having a wrapping night on the 23rd and the parents would present the toys to their children the 24th or 25th, it was their choice. The snow was falling as we loaded the toys and without a doubt it was beginning to look a lot like Christmas!

Branch 78 you have succeeded in spreading Christmas joy to a lot of children that may not have had anything had it not been for your generosity and commitment to ONE NEW TOY. Westland, Eastland, Worthington, West Worthington and Northland were the heavy hitters this year but the other stations that participated are just as important. I commend you and thank you profusely for your hard work this year.

Submitted by Yana F. Miller

Yana Miller and Todd Hornyak presenting contributions to Franklin County Childrens Service.

PRESIDENT'S PAGE

Continued from page 1

I want to thank Mike Holmes for all his work over the years. I first met him 25 years ago while working at station C. He takes with him much knowledge that only years of service can provide. Mike declined to run for EEO officer for another term. I want to congratulate Mike Iacoboni who was elected to the office. Michael has always done what was asked of him and I look forward to working with him. I also want to congratulate Chuck Sharp in his quest for trustee. Chuck brings with him many years of experience as a letter carrier and as former President of Branch 78. I also look forward to working with the executive board the next three years. Congratulations to all who were elected.

The job of a letter carrier is not getting any easier. More and more is being put on you. Educate yourself through whatever means available, this can include coming to the branch meetings, reading your negotiated contract and the handbooks and manuals available to you. Do your job the way it should be done, in a professional manner. If you work by what is set forth in the handbooks and manuals you will work easier than what you are working now. I mean this more now than ever; ***Remember keep fighting the good fight.***

Rocco Evangelista

GET INVOLVED

I would like to thank all the union brothers and sisters that took the time to vote in our local election. We had around 690 who voted out of 1400 active and retired letter carriers. That was almost the same figure of voters in the last year election three years ago. Everyone needs to get involved in our union functions. You should know who you elected and if they are working in the best interest of you and our branch. Attend our monthly meetings, hear what is going on, and address your concerns. **GET INVOLVED.**

Our new officers will be introduced in the New Year. I would like to personally congratulate them and wish them a successful term.

Stand Tall, Get Involved

A LETTER TO THE MEMBERSHIP OF BR.78 N.A.L C.

I want to take this time to thank the members of BR.78 (Active and Retired) for allowing me the opportunity to serve as your E.E.O. Officer for the past nineteen (19) years.

It has been quite an experience some good and some not so good. I have enjoyed working with three (3) very good presidents, Doug Gulley, Chuck Sharp and of course Rocco. Since becoming your E.E.O. Officer I have seen many letter carriers unjustly disciplined and some have been unjustly terminated, but thanks to the strong leadership of BR 78 most were vindicated and gotten their jobs back and any unjust discipline removed from their personnel folders.

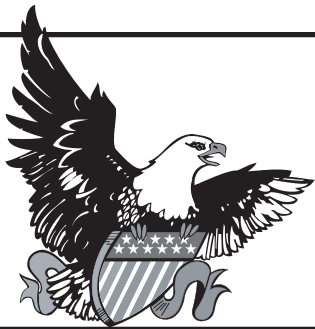

Do to my health I must step aside and turn this office over to a younger and healthier member. The next E.E.O. Officer (who ever is elected) will have his hands full with all the new methods of counting mail and ways to keep track of all letter carriers.

Remember my brothers and sisters you are the union so please if you don't already, attend your union meetings and participate in the operations of your union.

*Keep fighting the good fight.
Yours in Union*

Michael (Mike) Holmes

P.S. A very special thanks to Mr. Carl Booth (past vice president) who guided me through many arbitrations and E.E.O. formal hearings.

BRANCH 78 TRUSTEE GARY BOLLER

I just want to thank the membership for electing me to the position of Branch Trustee and delegate. It is a job that I have served in for approximately the last two and a half years. I take the position of Branch 78 Trustee seriously. In some ways it overlaps with being a Union Steward and a Formal Step A grievance representative for Columbus and the associate offices. It has always been a relief to be able to call upon the experience of Branch 78 President Rocco Evangelista and Vice President Bob Solt for assistance. This is even more so important when doing a removal grievance where the letter carrier's job actually depends on the experience of the grievance writer.

During the election campaigning we all heard the promises and criticisms made by some of the people

wanting to be elected. Where have these people been that as soon as an election comes around they suddenly have all the answers to solve everyone's problems? DOIS, mental stress, injuries, discipline and directives from management would have all been eliminated if, as claimed by some of the candidates, they were elected. It is very easy for the inexperienced to sit back and criticize our elected Union officers. We as Union members should, to the fullest extent possible, use the grievance procedure to stop any contract violations. Our Branch is fortunate to have so many highly qualified members running for the various Branch offices. We had people that would leave no one behind, a District Arbitration Assistant and a Legislative Field Representative for President of USA. How

long has it been since our National President carried mail? He seems to do a great job despite not carrying mail daily. Our Branch needs the expertise and participation of all Branch members. I attended approximately 95% of the Steward's meetings and at the end of nearly every meeting the Stewards were asked for comments or suggestions. The Branch needs all Branch members to be involved now. Do not wait until the next election to come up with the brilliant ideas to save the Union.

I again want to thank the members for electing me Branch Trustee and delegate.

*Sincerely,
Gary Boller*

**SAFETY
FIRST**

In FY05 there were 398 accidents in the city carrier craft. Of these, eighty-five were motor vehicle accidents where both vehicles were in motion, or hitting a parked car or a stationary object. FY06 began in October and there have already been seventeen motor vehicle accidents. Because of this the Post Master has mandated more street observations citywide.

Years of service do not seem to make a difference. The days of the week that have the most accidents

are Tuesday through Friday. Make sure that you are following all safety procedures. Do not jeopardize your career, health or the health of someone else just to meet time restraints placed on you by management.

Be sure to watch for those hidden obstacles under the snow, plastic bags, garden hoses, for sale signs, etc. If you know it's going to be icy or slippery don't forget to take your boots with good tread and possibly your cleats so you have sure footing. Wear lots of layers

of warm clothes. That way you can be prepared for whatever weather the day brings.

I want to take this opportunity to wish you all a prosperous New Year.

Tony Snyder
Your BR78 Health and Safety Representative

WHY USE THE FORM 3996?

Definition One: Vision – Something seen in a dream.

Definition Two: Perception – A capacity for comprehension.

For the mail work place today those two definitions above are so vastly different between management and mail carriers when it relates to shoving DOIS workload reports to carriers for their daily assignments. It's amazing how anything gets done! No matter what manner of measurement Postal management comes up with POST, DOIS or dried out burnt TOAST. Their perception is usually vastly different from mine, if you want me to carry nine hours worth of mail in eight or less! So what is the solution? It just happens that the M-41 has a solution to this dilemma not just for today but also for the future

as well. Page 9 Item 131-41-42-43 states clearly that: IT IS YOUR RESPONSIBILITY TO VERBALLY INFORM MANAGEMENT WHEN...It also states to fill out a 3996 etc. So just what am I saying? What I am saying is no where in the M-41 does it say anything about using half-baked route base data from DOIS to brow beat any mail carrier (field hand) into completing their daily assignment. If it does, it's not in my copy. If you do not complete this step it will be YOU not that person with the clipboard who will be AWARDED discipline for so called Unauthorized Overtime. Yes you Letter Carrier (field hands) with the bad back, worn out knees, carpal tunnel infected wrists, torn rotator cuff shoulders, just plain old dog tired.

Because there are not enough mail carriers (field hands) at your station to get the basic workload done, let alone a computer generated report! So, if a day after a holiday your supervisor states that you are an hour light even though you've got DPS on your route bursting out of the ceiling and the clerks are using CRANES to load your parcel tubs. It should be clear they are using MY definition of what the h___ is going on. So fill out form 3996. Remember flight 959 is a plane ride in the Postal Service that's never a vacation to Las Vegas. So protect yourself because I have not seen DOIS deliver one BUSHEL of mail, YOU DO!!!!

**BIDS WILL BE FOR ONE (1) YEAR BEGINNING
MARCH 1, 2006**

USPS/NALC SAFETY TASK FORCE REPORT

Penny Lindsey and I have been paired up on the USPS/NALC Safety Task Force and were asked to go to the Westland station because they have already had 6 motor vehicle accidents in FY06. We were asked to see if we could help in reducing or eliminating any further accidents. We enlisted suggestions from all carriers either on a buc slip or a 1767. They were to give these to me (since I am at this station) or send them to the USPS/NALC Safety Task Force c/o 850 Twin Rivers Dr. We explained that we were not there to discipline anyone (no gotcha's) but to try to stress how important safety is to them and the USPS.

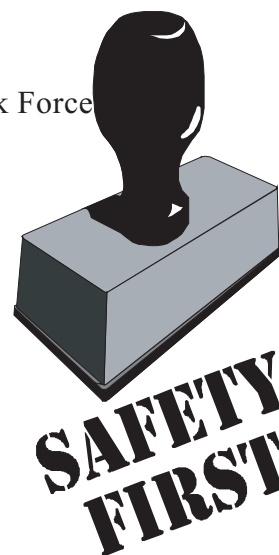

While we were there we also did some street observations at the request of the Post Master. It was agreed upon ahead of time that there would be no discipline issued. We noted numerous safety violations including a carrier that stepped out of their vehicle and left it running. I cannot believe with all the safety talks we get that someone would actually do that. It does not matter how late you are because of how much mail you have or because management and DOIS say you should be back by 5 pm. There is a form to be used for this situation. (Form 3996) Do your job safely and as efficiently as possible so you can go back home the same way you arrived at work. We had a discussion with those carriers that had violations letting them know what they had done wrong, what the proper procedure was and again stressing the importance of safety. You say what happened to the carrier that left their vehicle running? You could say it was their lucky day. We gave him/her a VERY stern warning and letting him/her know that they could have been going home and saying, "Honey I'm home! Oh by the way I lost my job because I did something stupid." For those who did follow all safety procedures they were rewarded with \$15.00 O'Charley's gift cards.

In closing if anyone has suggestions on how to reduce motor vehicle accidents, slip/trips and falls or injuries/illnesses, please jot them down and send them to me at..

HEART ATTACK WARNING SIGNS

According to the American Heart Association a heart attack is caused by a prolonged lack of oxygen-rich blood to the heart muscle that results in damage to that muscle. Some heart attacks are sudden and intense-the “movie heart attack,” where no one doubts what’s happening. But most heart attacks start slowly, with mild pain or discomfort. Often people affected aren’t sure what’s wrong and wait too long before getting help. Here are signs that can mean a heart attack is happening:

Chest Discomfort. Most heart attacks involve discomfort in the center of the chest that lasts more than a few minutes, or that goes away and comes back. It can feel like uncomfortable pressure, squeezing, tightness, burning, pain or mild ache.

Discomfort in others areas of the upper body. Symptoms can include pain or discomfort in one or both arms, the back, neck, jaw or stomach.

Shortness of breath. May occur with or without chest discomfort.

Other signs. These may include breaking out in a cold sweat, nausea, vomiting, weakness or lightheadedness.

If you have chest discomfort, especially with one or more of the other signs, don’t wait longer than a few minutes (no more than 5) before calling for help. Call 9-1-1. Calling 9-1-1 is almost always the fastest way to get lifesaving treatment. Emergency medical services staff can begin treatment when they arrive- up to an hour sooner than if someone gets to the hospital by car. The EMS staff are also trained to revive someone whose heart has stopped. You’ll also get faster treatment in the hospital if you come by ambulance.
