AUGUST 2020

VOL. 40 NO. 8

ELECTION NOTICE

In Accordance with Article 5 of the National Constitution and Branch 78 bylaws.

Nominations for all Officers including President, Vice President, Recording Secretary, Assistant Secretary/Editor, Financial Secretary/Treasurer, Safety Officer, Sergeant at Arms, Director of Retirees, MBA Health Representative, Five (5) Trustees, and Delegates to the National and Ohio State Association Conventions. Nominations will be conducted at the Regular Branch meeting which is scheduled for October 14, 2020 at 6:30pm, 1029 Harrisburg Pike, Columbus Ohio 43223-2524. The nominations will be for a three (3) year term beginning on or about January 1, 2021. The election will be conducted by secret ballot mailed to the member's last known address. Results of the election will be announced at the Regular December Branch meeting December 9, 2020.

ATTENTION!

One of the most heartbreaking precautions we have undertaken is the cancelling of the Annual Retirement Dinner.

Due to increasing safety concerns of COVID 19, we have cancelled all large-scale branch events. This includes the Annual Retirement Dinner. More information will be provided when available.

Doug Gulley, Director of Retirees

STOP COVID 19

Governor Mike DeWine announced that the Ohio Department of Health has issued a mandate of wearing of face coverings in public.

Social distance, carry hand sanitizer, gloves and cleaning wipes.

Remember put your mask on when you get out of your truck to deliver mail, and when you cannot social distance.

**REMEMBER STAY SAFE! STAY WELL!
WE ARE ALL IN THIS TOGETHER!**

Stewards please make announcements in your stations to update your addresses with the Union Hall since ballots will be sent to the address we have on file.

Encourage friends and family to contact legislators to include support for USPS in any new stimulus bills: [HeroesDelivering.com](https://www.HeroesDelivering.com)

PRESIDENT'S PAGE

Todd Hornyak

I want to start this article with the one bit of good news. On July 15, the branch received a decision from regional arbitrator Tobie Braverman awarding non ODL and work assignment letter carriers at the Columbus Bexley Station administrative leave at time and one half for being forced to work overtime off their assigned routes. This means if a non-list carrier is forced to work 1-hour overtime he/she receives 1.5 hours of administrative leave. This arbitration decision was a representative case for 5 other cases that had been appealed to arbitration. I want to thank Bexley Union steward Roderick Robinson for all his hard work preparing these cases. Rod met on the case at the informal and formal step of the grievance procedure. I want to congratulate West Worthington Union steward Jeremy Hirschfeld who was the Union advocate for the great job he did on the case. Jeremy was selected to be trained at NALC headquarters at Arbitration Advocate Training. Jeremy has been assigned several cases by the Region 11 National Business Agent Mark Camilli that were settled prior to going to arbitration. This was the first case he was able to present at arbitration and it is a great win for the branch and Jeremy.

I want to again thank all letter carriers for the incredible job you continue to do delivering the mail daily. I thank you for all you do. The number of cases of postal employees testing positive for the coronavirus in the Ohio Valley District has increased dramatically in recent weeks. There were approximately 15 positive cases of postal employees in the district

through May. Since June there have been over 60 positive cases reported in the district including at least 15 cases at the Columbus P&DC processing plant at City Gate. Currently six carriers represented by Branch 78 have tested positive with a confirmed case of Coronavirus. There are several carriers currently under quarantine. At the writing of this article over 3.5 million Americans have tested positive for the coronavirus and over 142,000 have died. The United States Postal Service reported that over 8,000 employees are under quarantine from the virus. Over 26,000 previously quarantined employees have been cleared and returned to work. About 2,100 of the currently quarantined employees have tested positive for the virus, and another 500 are presumed to be positive. Another 3,000 employees who tested positive in the past have recovered and returned to work. Of all these numbers, about one-third are letter carriers. Sadly, 72 employees have died from the virus, including 15 city letter carriers.

Governor Mike DeWine announced that the Ohio Department of Health has issued a mandate of wearing of face coverings in public in all counties that are designated Red Level 3 Public Health Emergency Alert. The order went effect at 6 pm on Wednesday, July 8, 2020 including Franklin County. I am asking all letter carriers to do all you can to protect you and your family from this virus. Your safety is the primary concern that I have. We continue to be in contact with the stewards at each station to ensure that you have the supplies you need to do your job safely.

We have been notified by management that formal route inspections have been scheduled for three zip codes in the fall of 2020.

Whitehall station will be inspected the week of September 19, Livingston Station will be inspected the week of October 3, and Hilltop Station 43204 will be inspected the week of October 17. The inspections should be in accordance with chapter 2 of the M-39 handbook. The inspections will include a six-day mail count. Management would not be inspecting these stations if they did not believe they can take time and routes from the stations. The reduction in mail volume is why management is inspecting. We will be conducting route inspection training for all stations shortly before the inspections begin. I am asking all carriers who are being inspected to please attend the training, so they receive proper credit during the inspection process.

I cancelled the April, May and June Steward and Branch meetings due to COVID 19. We held the July Branch meeting and had members listen to the meeting via teleconference. We followed the guidelines from the Governor and the Ohio Department of Health. Those in attendance had their temperature taken and wore masks and were seated six feet apart for social distancing. With the increase in cases we may hold the meetings via teleconference next month. Please check our website www.nalc-branch78.org for all the latest information. Regrettably because of the coronavirus we will be cancelling The Robert Solt MDA Golf Outing, Branch Picnic, Retirees Picnic, and the Annual Retirees Dinner this year. Unfortunately, we won't be able to hold these events that so many members attend and enjoy, but the safety of the membership is always the primary concern of the branch.

**Faternally,
Todd Hornyak**

FROM THE VICE PRESIDENT

Mark Beach

As we advance into August, the United States is still struggling with the COVID 19 pandemic. As countries in Europe and Asia see significant declines, the virus seems to be raging out of control here in the United States, especially in the South and Western regions. Here in the Columbus Installation, we have had several positive cases in several offices, luckily have not spread to other staff. The Columbus Installation processing plant has had the most positive tests so far but contact tracing shows that they are not related. Many employees and Americans don't seem to care about the virus, taking it lightly, not wearing masks, going out to crowded bars and beaches and spreading the virus unknowingly. The effect of the virus seems to hit home when a loved one contracts it. My niece, who is a medic in the Ohio National Guard, has been called up to do testing in nursing homes and it certainly has brought a new perspective to her as to the costly toll this virus can have for many.

Recently I received a call from a carrier who was in a panic because two of her retail stores had been closed due to employees having COVID 19. The carrier had been in direct contact with employees that had contracted the virus. She was scared because she had recently been around her newborn granddaughter. She did not fear for herself but for her granddaughter, even though she had some underlying medical conditions herself. This is typical of most good letter carriers; they put their thoughts and needs of others ahead of themselves.

Here in Columbus and the surrounding offices, management's response has been varied. All offices seem to have personal protective equipment and cleaning supplies. I have asked the stewards to contact me if the office is lacking anything. Even though it has been (required by upper management) state mandated that the wearing of masks is mandatory in situations where employees cannot maintain social distancing. Managers at some stations have failed to set the example. I have watched managers give service talks in stations while the masks dangle from their face and they are inches away from other employees. How are employees supposed to respect and follow a safety policy when their own management staff are not setting an example? Yet it seems management would rather attack and blame the NALC for these failures than look at its own management staff and enforcement procedures. I pray that a vaccine is found soon before it is too late. Please, even if you don't believe in the policy, wear a mask when social distancing cannot be achieved! If not for yourself do it for your co-workers and their families.

The power of a grievance was proven in an associate office recently. Buckeye Branch 78 took over as steward in the absence of an appointed steward. Previous stewards at this office had filed few grievances over the past ten years. After visiting the office a few times and reviewing records it was clear that management was violating Article 8 daily. There were a couple of carriers on the overtime desired list that were not being maxed out to their contractual limits. Branch 78 started requesting information and filed a grievance each day a violation oc-

curred. After about 5 weeks and substantial payouts, the Postmaster took a downgrade and a new OIC was brought in. After about a week and some staffing adjustments the violations started to become very sporadic. This was a best-case scenario, but it shows that the grievance procedure can work when stewards file proper grievances.

To ensure better representation for our members NALC Branch 78 is planning on hosting a Steward School in the fall. This will be an in-depth class put on by the Business Agent's office and will serve as a building block and foundation of the branch for many of our stewards for years to come. Remember stewards are elected by the carriers in the office they represent. Make sure you make wise choices and support your

July 15, 2020

Statement from President Fredric V. Rolando

Re: COVID-19 Virus Crisis

On July 2nd, Senators Susan Collins (R-ME) and Dianne Feinstein (D-CA) introduced the "Postal Service Emergency Assistance Act" (S. 4174). The bill would provide \$25 billion in direct relief to the agency through establishment of a "Postal Service COVID-19 Emergency Fund" to make up the difference between revenue and expenses during the pandemic, making the fund available through September 30, 2022. Notably, the bill makes clear that the \$10 billion Treasury loan approved in the CARES Act, would be subject to the terms and conditions agreed to in the note purchase agreement between the Postal Service and Federal Financing Bank from September 29, 2018. The inclusion of these terms would be far more favorable than the rumored terms and conditions that the Department of Treasury is insisting on but refusing to make public in order for the Postal Service to access the funds.

These two provisions of the Senate bill are consistent with NALC's immediate priorities related to COVID-19 funding and are similar to provisions contained in the HEROES Act, which passed the House in May. The HEROES Act includes \$25 billion in direct funding to the Postal Service, and would also repeal restrictions on the \$10 billion line of credit that was authorized by the CARES Act. But unlike the Senate bill, the House HEROES Act also contains a hazard pay provision that would include letter carriers.

There is rising support from Senate Republicans to pass another stimulus, but it remains to be seen exactly how it will go. NALC is hopeful that the bipartisan and bicameral calls for immediate financial relief will be part of the conversation between House and Senate leadership and the White House when negotiations over the next relief package resume later this month.

NALC continues to lobby aggressively for direct financial relief, favorable loan terms, and hazard pay as outlined above. Letter carriers should continue contacting their senators to urge support for such funding in the next stimulus package. For more information on how to take action, please visit the "Government Affairs" page on the NALC website. And please continue to encourage your family, friends, and neighbors to do the same by visiting www.HeroesDelivering.com.

In other legislative news, the House recently passed the "Moving America Forward Act" (H.R. 2), a \$1.5 trillion infrastructure bill that invests in roads, rail, public transit, ports, aviation, energy and water. Of particular note, the final bill included \$25 billion for postal infrastructure modernization, including \$6 billion to upgrade postal vehicles. The bill requires that 75 percent of the new fleet be electric or zero-emission vehicles. For medium/heavyweight vehicles, the electric/zero emissions requirement would be 50 percent by 2030 and 100 percent by 2040. The bill would require the "Buy America Act" provisions with regards to vehicle procurement. The bill also would equip each postal facility with electric charging stations, at least one of which would be made available to the public, officers and employees of the Postal Service. The bill is not likely to be considered by the Senate, which has already begun work on its infrastructure package.

As indicated in my last statement, on June 15th Louis DeJoy replaced Megan Brennan and became the 75th postmaster general. While I have had a couple of brief conversations with him, I look forward to several hours of discussion on various topics after he has had a chance to settle in. I've made it clear that we remain committed to working in good faith to build a relationship based on mutual trust and a shared vision for the future of the Postal Service - as long as that shared vision embraces a strategy to grow as a public institution that values its employees and works with its unions to promote high-quality service, safety, efficiency and a workplace culture of mutual respect.

In my last statement I mentioned the nomination of Donald Lee Moak and Bill Zollars to serve on the Postal Service's Board of Governors. Both have since been confirmed by the Senate, and sworn in as Governors. We anticipate that the Board of Governors will soon appoint a new Deputy Postmaster General to replace Ron Stroman, who resigned on June 1st.

This transition represents a massive change in leadership at the Postal Service consisting of a new PMG, a yet to be appointed Deputy PMG, four relatively new Governors, and two new Governors who have yet to attend their first meeting of the Board of Governors. Initially, at a minimum we expect there will be thorough reviews of Postal finances, operations, human resources, and marketing, as well as legislative, regulatory, and legal matters.

On the operational front, it is my understanding that supervisors are conducting stand-up talks to all employees on initial transportation phases of an operational pivot plan based on some internal documents regarding cost reduction. None of these changes or plans have been discussed or explained to NALC, and we will closely monitor the provisions of their plan for contractual compliance.

Absent reaching a tentative settlement on our collective bargaining agreement, we are prepared to begin Interest Arbitration in late September. We continue to engage the Postal Service in negotiations, as we would much rather send our members a tentative agreement for ratification. However, we are more than ready for the Interest Arbitration hearings.

Several COVID related Joint Memorandums of Understanding have been further extended through September 25, 2020. These memoranda include: temporary use of the 7:01 rule; temporary additional paid leave for CCAs; temporary expanded sick leave for dependent care; temporary use of TCAs; temporary workplace changes to promote social distancing; temporary time limit extensions on Step B and arbitration appeals; and an agreement giving local parties the ability to develop a sign-up process for full-time employees who previously did not, or could not, place their names on either the overtime desired list or work assignment list. Also extended through September 25th is a USPS memorandum which instructs managers and supervisors to allow liberal changes of schedule to accommodate employees who are dealing with childcare issues related to the pandemic. The USPS memorandum also provides for liberal sick leave usage for employees who are sick and liberal annual and leave without pay (LWOP) to the extent operationally feasible, treats COVID-19 related leave as scheduled (as opposed to unscheduled) leave, and directs that leave taken for COVID-19 related reasons during this time not be cited in discipline for failing to maintain an assigned schedule.

Each of the MOUs and the USPS directive can be found in NALC's Materials Reference System on the NALC website.

On June 3rd, we settled a national-level grievance regarding the Postal Service's unilateral testing of Consolidated Casing. This settlement, M-01923 in NALC's Materials Reference System, requires that half of the 62 test sites be returned to their original route structure by July 31, 2020. The remaining 31 test sites will continue through November 27, 2020.

The Postal Service has selected the first 31 test sites for the routes to be returned to their original structure, and the local parties have already been informed. According to the settlement, the local parties are supposed to work jointly through the transition of returning routes in the test sites to their original structure, with assistance and guidance being provided by the appropriate NALC National Business Agent (NBA) and USPS Area Manager, Labor Relations (AMLR), or their designees.

Unfortunately, from what we have seen and heard so far, the Postal Service is mandating local management to perform this transition unilaterally with a one-sided set of arbitrary rules in contradiction to the settlement. I have appointed representatives from NALC headquarters to work with the regions and local parties to determine and communicate transition plans to USPS that are consistent with the terms of the settlement. We stand committed to working with USPS, as the settlement directs, to return these offices and the routes to their original structure. Hopefully implementation of the settlement does not result in additional disputes over the clear language of the settlement. If it does, NALC will take appropriate action.

Another piece to eventually putting the Consolidated Casing dispute behind us is dealing with the thousands of grievances filed in the 62 test sites. The settlement states that grievances related to the Consolidated Casing that were pending at any step of the Dispute Resolution Process as of the date of the settlement or future grievances not resolved at Formal Step A will be sent directly to the appropriate NBAs and AMLRs, or their designees. They will jointly determine which grievances are resolved by the settlement, can be resolved by the parties, and which will be further processed.

In my May 13, 2020, statement I reported that the Postal Service was in the process of testing the use of various types of materials and styles to be used as face coverings during the hotter months. Such styles tested were various bandanna type masks, neck gaiters, and even cooling masks. As a result of the carriers' input who participated in the tests, the Postal Service ordered three types of masks for purchase by local managers for letter carriers to use.

The three types of masks are all washable and re-usable and include a black cross strap style, a blue neck gaiter style, and a grey adjustable ear loop style. The Postal Service has advised that the masks are available in every district, and that local managers should consult with their respective district office to order. Please contact your NBA office if there are problems with such orders.

The Postal Service has completed their testing of temperature measuring equipment, and has identified a company that will provide technicians to conduct what they describe as highly accurate COVID-19 testing in postal facilities. As they decide if, when, and where they would like to proceed with any such virus related testing of employees, we are discussing the necessary policies, procedures, and protocols that would need to be agreed on before any such testing and contact tracing could be implemented.

Today, almost 8,000 postal employees are under quarantine from the virus. Almost 27,000 previously quarantined postal employees have been cleared and returned to work. About 2,100 of the currently quarantined postal employees have tested positive for the virus, and another 500 plus are presumed to be positive. Another 3,000 postal employees who tested positive in the past have recovered and returned to work. Of all these numbers, about thirty percent are letter carriers. Sadly, 72 postal employees have passed away from the virus, including 15 city letter carriers.

Thank you for all that you do. As you continue your selfless and heroic service to the American public, please stay safe. God bless each of you and your families.

JULY 2020 BRANCH MEETING

President Hornyak opened the meeting at 7:35; Pledge by Chris Semo; Invocation by Yana Miller-Farney; Moment of Silence for Service Men & Women and First Responders. Regular order of business suspended for the Memorial Service (normally done in May).

Todd read the names of twenty-four members who had passed since our last service. VP Mark Beach extinguished a candle as each name was read. Regular order resumed with reports of standing committees.

Yana Miller-Farney read the minutes from March and June; they were accepted as read.

Todd (for Trevor) read Communications from Cummins/Lawson families a thank you card; Earth Angels have cancelled the 06/20/20 Cruise-In. They are returning any monies received. It was suggested we tell them to keep our donation but it had not been sent yet. Read the Bills Lists for March, April, May and June; forty-five applications for membership.

Mark Beach - There are six stations having Steward Elections, working on New Steward School. Ramon Lawson- Remind any newly converted CCAs to get signed up for health benefits, quickly, they only have 60 days after conversion to transfer from CCA Plan to another FEHBP, coverage only last to the end of the month converted. Otherwise they must wait for open season.

Chris Semo - Law Comm, nothing submitted.

Gary Porter - no safety meetings since COVID 19; You must wear a mask anytime you are out of the vehicle. This is for your family, coworkers and you... everyone's protection. We are not the mask police but if your managers don't wear mask report to the Hall.

Mark read the Treasurer's Reports (Jason on vacation) March, April, May and June.

New Business

Mark made a motion, seconded by Brenda Stidham, to send a \$5000 donation to Mid Ohio Food Collective since Food Drive was cancelled. ~ **Motion Passed**

Ramon made a motion, seconded by Ed Thomas to credit delegates for April, May and June meeting. ~ **Motion Passed**

Ramon Lawson, made a motion seconded by Myron Miller, to pay Organizational Expenses to Stewards for April, May and June. ~ **Motion Passed**

Mark Beach made a motion, seconded by Jacki Mitchell, to spend up to \$13,025 for 17 New Stewards to attend New Steward Training in Columbus, cover lost time for three days of classes. ~ **Motion Passed**

These are very trying times, Health and Safety of Letter Carriers is one of President Rolando's main concerns. Four carriers in Columbus have tested positive for COVID 19, at Beechwood, Oakland Park, Bexley and East City. Masks have arrived in Columbus but only giving one at a time. Each Carrier was to get a pack of five white masks that are washable, Whitehall and Gahanna didn't get the message. Gov. DeWine made mask wearing mandatory in seven counties, that are Level 3 and 4; Columbus, Dayton, Cincinnati and Cleveland fall under the July 7th order.

Discussion on the killing of George Floyd by Minneapolis police. We can no longer tolerate unfair treatment of different races and the necessity of all people being treated fair and with respect. This act was senseless and sparked protests. USPS employees are considered essential personnel are not restricted by the curfews and travel restrictions. Postmaster had collection boxes removed from downtown. They are to be returned when things quiet down.

Arbitration on May 13, Arbitrator Braverman, Class Action from Bexley for Article 8; Union is requesting Administrative Leave, Jeremy Hirschfelt was the union advocate, Mike Brim acted as TA. Management had no witnesses.

Postmaster returned from detail in Philadelphia June 15 is on detail at the Plant. Rumor is she will be at the plant until September. Consolidated Casing, National M-01923 was resolved June 3, 31 test sites to return to original structure by July 31, 2020; Gahanna to return by January 22, 2021. John Collins will handle grievances; Mark Camilli - route restructuring. A few station start times are rolling back: German Village and Livingston to 0730; South Columbus, East City, West City, Northwest, Westland and Northland to 0800. Formal Inspections scheduled for Whitehall 9/19/20, Livingston 10/03/20 and Westland/Hilltop 43204 10/17/20. Formal A cases lowest in last several years, primarily issues with management, 760 cases appealed to Formal A, so far this year while 3,000 appealed to Formal A last year. Business Agents have Pre-arbed 440 so far and 534 Pre-arbed all of last year. Interest Arbitration, twenty dates from September to November selected.

Major legislative pushes toward including USPS in next stimulus bill, due to lost revenue; Prefunding; Vote by Mail; Postal Reform is on the back burner; although financial outlook is better than expected, according to some reports. New Heroes Act passed by the House in June, it included hazard pay for essential and front line workers including letter carriers and other postal employees. SB 4174 introduced in the Senate 07/02/20. Direct family and friends to HeroesDelivering.com. New PMG, Louis DeJoy, appointed June 15. Postal Board of Governors has two more appointees gaining a quorum, Donald Lee Moak, former Delta pilot and former President of Airline Pilots Association and Bill Zollars former Chairman of logistics company, YRC Worldwide.

In light of COVID 19 the Branch Picnic and Golf Outing have been cancelled for this year.

Branch elections will be held in December; Nominations in October. Branches have been told to consider alternatives for conducting nominations and elections; ex: using mail-in or teleconferencing options like Zoom or WEBEX. Labor Management Climate - Jason Fry brought back to carry; Trevor Payne pulled from DSI and Career Academy; requesting updated restrictions for limited and light duty carriers.

Good of the Association

Any estimate on the completion of door repairs? There have been several dates and reschedules, requesting a final completion date since we have been very understanding. Please make announcements in your stations to update your addresses with the Union Hall since ballots will be sent to the address we have on file. Considering the number of bulletins returned every month you aren't submitting address changes. Some need to speak with their carriers because the address we use has been confirmed as correct. A notice will be placed in the Bulletin. Improvement of the Service.

Chris Semo won the gas card. Gary White would have won \$100 had he been present.

Submitted by Yana Miller-Farney

30 Year Pin Congratulations

Yana Miller-Farney receives 30 year pin.

Retirement Watch Congratulations

Eric Eyen, Beechwold receives Retirement Watch.

Vice President Continued from page 3

steward; require them to enforce the contract even if it means some carriers get upset and don't give them the support they need to do their job so they can protect your rights.

Let's all work together to ensure the safety and health of all and to protect our future as letter carriers. Here are some examples on how you can get involved: learn the contract, write letters in support of the

Post Office to your local congressional official, give to the Letter Carrier Political Fund, read the local and national union publications visit our local website, ask your steward what they learned or studied at the stewards meeting or branch meeting. One thing that we have learned from recent protest is change only comes when it is actively sought.
