JULY 2020

VOL. 40 NO. 7

PRESIDENT'S PAGE

Todd Hornyak

I want to again thank all letter carriers for the incredible job you are doing delivering the mail daily. Letter Carriers are delivering prescription drugs, public health information, goods purchased by sheltering families and other vital mail to keep our country going. Please follow all procedures to make sure you and your family are safe. Make sure you wash your hands regularly. Use hand sanitizer and wear gloves and masks and practice social distancing. The state of Ohio is now opening back up and I hope this does not lead to an increase of positive tests.

I would like to address the senseless killing of George Floyd by the Minneapolis Police. The unfair treatment of people of different races cannot be tolerated. The fact that this has happened in Georgia, Kentucky, and Minnesota in the last month makes it clear that the underlying issues must be addressed immediately. Branch 78 represents hundreds of people of color in our branch and we must ensure they receive equal treat-

ment and we must all stand up for what is right.

The Postal Service and the NALC came to agreement on the National grievance filed over managements unilateral test called the Consolidated Casing Initiative. The Consolidated Casing Initiative began September 16, 2019 at Gahanna Station 43230. The new system had Casers and streeters. Using their new system management had one carrier case 5 different routes. The casers began their tour at 5:30 a.m. The other carriers were called streeters and they carried on the street for 7 hours and 45 minutes. One half of the streeters started at 8:30 am and the other half started at 9:30 a.m. They reported to the station to pick up their mail and parcels and head to the street.

The agreement signed at headquarters states management will select 31 of the 62 current case consolidation test sites and those 31 test sites will be returned to their original route structure by July 31, 2020. The remaining 31 test sites will continue through November 27, 2020. These test sites will be returned to their original route structure by January 22, 2021. All routes from the test sites

will be evaluated and adjusted as necessary beginning in January 2021 by either a joint route evaluation and adjustment process or the traditional route evaluation and adjustment process in accordance with Chapter 2 of Handbook M-39.

The agreement states grievances related to the Case Consolidation Test will be sent directly to the appropriate NALC NBAs and USPS AMLRs, or their designees. The parties at the area/regional level will jointly determine if such grievances will be closed as a result of this resolution or processed. Additionally, the NBAs and AMLRs (or designees) will oversee the local parties' transition of returning test sites to their original structure. We have not been informed by management if Gahanna will be one of the 31 test sites returned to their original route structure by July 31, 2020.

I would like to congratulate several City Carrier Assistants that have been converted to full time regular recently. Delaware had 2 conversion, Reynoldsburg had 2 conversions, Westerville had 4 conversions and Columbus had 28 conversions over the last two

Continued on page 4

FROM THE VICE PRESIDENT

Mark Beach

Disclaimer, this article is my personnel belief and opinion only and does not necessarily represent or speak for NALC Branch 78. I'm very saddened and upset by the tragic murder of George Floyd. Although the majority of the police officers that are serving in America are good public servants, we cannot stand by and tolerate those that act improperly. Those that harass, intimidate and even take the lives of innocent citizens based on their race. It must end! I support the right to peacefully protest but do not condone violence or the destruction of property. Ultimately, we as a nation cannot ignore that there is a section of our society, both black and white; that are coming from a place of hate. We as a nation, must unite to confront these people head on and stand up once and for all; Come together to wipe away this type of behavior in our society. The law enforcement creed is to protect and serve, this especially means someone in custody. The actions of former officer, Derek Chauvin can only be seen as murder.

The action was reprehensible but it does not mean every police officer is cut from the same cloth. Society must figure out a way to address this issue and bring racism to the forefront. To come up with a plan to ensure that change is enacted. Violence and hatred, however, is not the answer and in the words of the great Dr. Martin Luther King, Jr. "Darkness cannot

drive out darkness; only light can do that. Hate cannot drive out hate; only love can do that".

Many of you have noticed that we have had a lot of late arriving parcels in the offices represented by Branch 78. We have been told this is because the Columbus plant is assisting several cities like Detroit in the processing of mail and packages. Due to the COVID19 outbreak in these areas, where so many workers are being affected by the disease. Here in Central Ohio, we have been able to avoid mass outbreaks of the virus within our processing plant and carrier offices, so far. Please continue to take the precautions necessary to help ensure your safety and the safety of your fellow employees. I ask the membership to be respectful of others feelings and responses to the virus. There are many differences of opinion on the virus, shutting down the economy, social distancing the wearing of masks, etc. There is no right or wrong position to have in my opinion, but there should be respect and understanding from everyone.

President Rolando was scheduled to meet with the new PMG the week of June 6th, 2020. According to Rolando, the new PMG has said a lot of the right things so far, however, given his track record of union busting

and resistance, I will take a wait and see approach. Continuing to encourage our members, their families and friends to contact their congressional officials to support stimulus relief for the USPS due to the economic effects of COVID19. Bailouts for other industries affected by the virus have been approved and so should the bailout for the USPS.

Hopefully, in July, we will slowly resume holding meetings at the union hall. We will be making extra efforts to clean and disinfect and following best practices when these meetings resume. Food may not be provided at the meetings. Space may be limited due to social distancing requirements. We will work toward resuming normal practices, as soon as it is safe to do so. The last two stewards meetings were by teleconference. There has been some tremendous feedback from the stewards, especially for associate office stewards who normally can't make it to the meetings. Of the two teleconferences held, only four stewards did not attend each call. We will be holding several steward elections, that were put on hold due to COVID19, in the coming months. Hopefully, we will be holding a steward's training sometime this fall.

Mark Beach, Vice President

**THE WEATHER IS GETTING
WARMER AND THE PETS WILL
BE OUT MORE. KEEP YOUR EYES
OPEN AND REMEMBER.**

MILLER'S MUSINGS

Yana Miller-Farney

Thanks to every carrier that continues to serve the American public daily. They can tell if there is a smile under your mask by

the twinkle in your eyes and the cheeks that lift. One of the most common threads heard throughout the last thirty years is the appreciation for a smile with that delivery. Such a small gesture that can make a person's day. Right now, we are trying to get the public to join us in requesting funding for the USPS during the pandemic. It has decimated our mail volume, things are starting to open again but many businesses won't be back, even a number of the larger retailers are not able to weather this disaster.

The other day a carrier entered a downtown business, was asked to put on a mask, as is their policy with all non employees. That carrier responded, "I don't have to!" Went on to drop a tub of mail and left before she could be stopped. There was a misdelivered certified in the tub with a return receipt attached. This mail was not handled properly, they did not get what they paid for from us. This is not the way to gain support for our cause. We need to make every effort to provide the best service possible, especially when our patrons spend for addition services. They are paying our salaries, we owe them excellence at every step of the process. Particularly that last mile. We know that poor decisions have been made closing plants, piling more work on those remaining facilities so

Columbus mail is the last put on the machines by virtue of the distance to stations. Thus the need for excellence in our part of the delivery path. Most carriers go that extra distance but those that perform in the manner described earlier don't help us as a whole. It is all of our responsibility to serve the public well, no attitude and quality service. It's the reason we have been at the top of surveys as the most trusted public employees. Do your part daily to keep us at the top, please do it with a smile.

We had our first telecom Branch meeting last week. It seemed to go fairly smooth, except some folks forgot to mute their mics, as one should do on any telecom but it was the first and things will improve. There is hope that we will meet in person for the July meeting but it is too soon to say. Almost a quarter of the states that have reopened have seen an uptick in new Corona Virus cases. I would suggest you still practice those safety precautions until a vaccine is found and put into widespread use. Wear masks, wash hands, use hand sanitizer, avoid touching hands to face and limit contact with others. I speak with people that insist this was all a hoax promoted by the media and health professionals, which amazes me every time. They don't have a comment about the number of deaths sustained around the world but it's a hoax. Can people really be that misled? Obviously they can, because between eight schedulers we average two a day. I ask that each of you do everything you can to promote health and wellness in your daily routines at work and home. You are important to us.

Lastly, the weather is warming rapidly. I remind everyone to keep hydrated with water and liquids that replace electrolytes. Reduce your intake of caffeinated, sugary and alcoholic beverages when out in the sun without climate control. Be aware of the signs of heat exhaustion and strokes. If you have any of the symptoms get to a cool spot where you can lower your body temperature, get help or call 911. Notify your manager that you are experiencing symptoms and they are to report it to the Branch, who will report it to the National. They keep track or all weather related incidents experienced by letter carriers. These can cause serious impairment or fatalities. **Be safe out there!**

President's *Continued from page 1*

months. The branch has hosted several full-time regular conversion classes given by Health Benefits representative Ramon Lawson. The classes explain the benefits to the newly converted regulars. We ask all new regulars to choose the NALC Health Benefit Plan.

Currently only one carrier represented by Branch 78 has tested positive with a confirmed case of Coronavirus. There are carriers currently under quarantine. At the writing of this article over 2 million Americans have tested positive for the coronavirus and over 115,000 have died. The United States Postal Service reported that over 5600 employ-

ees are under quarantine from the virus. Over 20,000 previously quarantined employees have been cleared and returned to work. About 900 of the currently quarantined employees have tested positive for the virus, and another 500 are presumed to be positive. Another 2,100 employees who tested positive in the past have recovered and returned to work. Of all these numbers, about one-third are letter carriers. Sadly, 67 employees have died from the virus, including 14 city letter carriers. I have never been prouder to represent letter carriers. Your safety is the primary concern that I have. We continue to be in contact with the stewards at each sta-

tion to ensure that you have the supplies you need to do your job safely.

I cancelled the April, May and June Steward and Branch meetings due to COVID 19. I am hopeful that we will be able to schedule the July meetings. We will follow the guidelines from the Governor and the Ohio Department of Health. We have delayed the scheduling of The Robert Solt MDA Golf Outing and Branch Picnic until we are cleared to safely schedule these events.

Fraternally,

Todd Hornyak

Branch 78 Health Benefits Representative Ramon Lawson held 2 classes on May 28, 2020 at Branch 78 Union Hall for newly converted regulars to inform them about the NALC Health Benefit Plan.

LEGISLATORS!
TELL THEM TO
SHOW THEIR
SUPPORT FOR THE
USPS!**

From Region 11 NBA Mark Camilli

Mark Camilli

Looking back at my last quarterly article, I can't believe how much our lives have changed since then. The year 2020 has revealed itself to be the most challenging year in my lifetime. COVID-19, civil unrest, USPS finances, new PMG (not hired from within), election year, collective bargaining agreement – the list goes on. Those of us who live in the world of “postal blue” surely feel the heavy burden that each of these challenges bring. I am thankful to be part of a great union. Having each other, working for a common cause will help us get through each of these challenges.

I am pleased to report to you that President Rolando has appointed Doug Lawrence Br. 134 Syracuse, NY as Region 11 and 14's RWCA (Regional Worker's Compensation Assistant) effective May 18, 2020. Doug has assisted and served on a part time basis in this capacity over the last few years. He works tirelessly for both members and branches. He has great knowledge, knows how to navigate OWCP and truly is an asset for the membership of Region 11. Welcome to “Team 11” Doug! As soon as Covid restrictions are lifted, I plan on utilizing Doug to conduct training for Region 11 Branch OWCP representatives.

In other good news, the NALC and the USPS have settled the national-level grievance on the Postal Service's unilateral testing of “Consolidated Casing”.

The settlement requires 31 of the 62 sites to be returned to their original route structure by July 31, 2020. The remaining sites will continue through November 27, 2020. The joint City Delivery task force (established by a memorandum of understanding) will analyze the data. The task force will either continue testing, jointly conduct an alternative test or if there is no joint agreement then these sites will be returned to their original structure by January 22, 2021. Although the USPS had plans of expanding this test to (at least) 240 sites, this agreement calls for no further expansion of the current 62 Case Consolidation test sites. I want to thank President Rolando and the team at HQ for getting this agreement. A bigger thank you goes out to the Letter Carriers of Gahanna Br. 78 Columbus, OH; Webster Br. 210 Rochester, NY; Station A Br. 40 Cleveland, OH and Niskayuna Br. 358 Northeastern NY. They have endured many challenges both at home (from major schedule changes) and at times, the contentious workroom floor. I also want to thank the branches, grievance handlers and observers - I know this has been a long tiring road for all involved but each of you exemplified patience and professionalism.

I would be remiss if I did not take the opportunity to discuss the current civil unrest issues sparked by the outrage to the George Floyd killing while in police custody in Minneapolis. While that video and act is truly disturbing and hard to watch, it

brought about a national discussion and awareness of a turbulent undercurrent of deep social problems facing our nation. This is a time when our national and local elected leaders should be listening, taking action and helping unite us. Unfortunately, the lack of messaging from our highest position seems deafening. I had the opportunity to serve in the US Navy where every race, creed, color and religion served side by side making us the greatest naval force in the world. I also had the opportunity to serve as a letter carrier and officer in the NALC where the same holds true. We work side by side, where every race, color, creed and religion is represented making us (in my humble opinion) the best delivery force and union in the world. If some of our political leaders refuse to recognize the value of our diversity and choose to use it to divide us, then we must stand united to make positive change from the bottom up. If they took and we took an oath to support and defend the Constitution then perhaps it's time to review its preamble:

“We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America”

**UNITED
WE STAND!**

JUNE 2020 BRANCH MEETING

Meeting called to order by President Hornyak at 6:31, since this is a telecom, deviating from regular order of business. Started by thanking everyone for all they do/have done daily. President Rolando sends his thanks and how proud he is to lead this organization.

Motion made to pay stewards for April, May and June meetings, also credit all delegates for same. Seconded and passed.

V.P. Mark Beach sends out daily updates.

Region 11 NBA Mark Camilli, RAA John Collins, RAA Dave Kennedy, RWCA Doug Lawrence and RGA Mike Brim have joined our telecom. Thanked everyone and pointed out the stories about Letter Carriers going above and beyond their regular duties during these tough times. There is a website, Heroesdelivering.com, for them. Carriers have a 94% approval rating from the general public, evidenced by polls of Americans, right and left.

Reminder to maintain social distancing, clean vehicles, work areas and follow SOPs relating to COVID19. Legislative Action, sign in to send your elected officials request for Pandemic assistance for the Postal Service due to losses in revenue from closures. Invite family, friends, customers to participate. President Rolando has spoken with the new PMG, Louis DeJoy, he said all the right things but time will tell his true ambitions, Fred is cautiously optimistic. There were test on twenty different face masks, three selected should be out soon; reading temperatures, using a camera to get temps, anything over 104, rechecked and sent home; following a series of COVID MOUs that were extended. Consolidated Casing Initiative news, wanted to roll out to 240 sites; now the current 62 will be reduced by 31 the end of July, they will return to original route structures. The other 31 could continue with CCI, as current structure, or with changes suggested by carriers or return to their origin format by January 22, 2021. Not sure which dates apply to Gahanna, will advise as soon as informed.

The last two Steward meetings have been by telecom, the stewards have expressed the format works better than them trying to rush to the Hall. The most recent was on filing backing grievances, there have been an uptick in Associate offices and the City. Discussing how to construct, what to request to have solid documentation. Discussed Leave for COVID19 situations, due to health of individual, family member, closing of child care, quarantine, etc. There are multiple situations and leave options, 80 hours of emergency leave and FMLA is available for 12 weeks, first two without pay. Unless you use sick or annual, the remaining ten weeks are a reduced pay status. Trevor has all this information on the Branch website and has done a great job keeping it up to date, make sure you complete 3971 and provide any other required documentations when requesting. Since the outbreak, Todd and Mark have been limiting time in stations, There are a number of stations that are scheduled for steward elections, which will be happening in the very near future. The MOUs that were extended are 1910 on temporary Sick Leave for Child/Dependent Care; 1911; 1913 on the use of 701 time, Dean Peruzzi is monitoring this. 1914 for schedule changes and 1915 for temporary work groups to maintain social distancing. There have been lapses in training for mounted delivery, using a follow behind in another vehicle, not really effective but only way to maintain social distancing. If you have questions or difficulty requesting COVID related leave contact the Hall for assistance.

We are still encouraging wearing face masks, under the Governor's and CDC guidelines. Bear in mind we are not the mask police. If management sets a poor example and is not notify the Hall so it can be communicated with the Acting PM. There has been one carrier confirmed positive for COVID19, he was a Limited Duty person whose last work day was 5/2 and tested positive 5/21, in a branch of a thousand active carriers we have been very fortunate. Todd gave the statistics of workers quarantined nationally, numbers that have returned, how many have tested positive. There have been 62 postal deaths, fourteen were carriers. There have been AO and City conversions to PTFs and Full Time Regulars. We are allowed an hour and a half with them, Ramon Lawson has conducted several classes at the Hall about health insurance, FEGLI, TSP, rights and benefits. The Hall has been setup to provide social distancing; it appears about 26 to 30 members can be accommodated. We are hoping to have a meeting in July but not serving food yet. We had an arbitration for a Bexley case working people not on the OTDL, trying to get Administrative leave for hours worked. Jeremy Hirschfelt presented the case on short notice but

did an excellent job, articulating our position. USPS did not call any witnesses before Arbitrator Braverman. We also had expert backup from RGA Mike Brim, he felt we are in very capable hands with Jeremy as an advocate, there should be an award any time now. Todd expressed deep sadness over the killing of George Floyd, noting everyone should be treated equally, no matter their race or origin. Explained how downtown routes were handled during the protests and demonstrations. It was determined that we are essential and not restricted by curfews. Only late afternoon and early evening deliveries were affected. There was discussion on the Delayed Food Drive, talk of a virtual Drive collecting monetary donations through a website. If people ask how they can contribute, they can write checks or money orders to Mid Ohio Food Collective, be sure to write: NALC Stamp Out Hunger in memo line. Local 1059 UFCW plans to donate \$5,000 to the Food Drive. The Executive Board discussed and voted to bring it before the membership at the next meeting to do a \$5000 donation, too, since Convention was cancelled. The National has mentioned matching Branch donations, as well. There was an update on Postmaster, the Acting may stay since our PM is still in Philadelphia. John Collins thanked Todd and other Branch Presidents for Pre Arbing 95 cases from 129. Bob Dean left DRT for Finance, post up for bid, Lee Bossa is the temporary. Jackie Habash reminded everyone to use EAP during these times of strife, EAP4YOU.com or 1-800- EAP-4YOU. excellent free resource. Also remind newly converted carriers they only have 60 days to select health insurance. The Picnic and Golf Outings have been cancelled no one wants to sign contracts during COVID19. Question from Oakland Park on handling 3849 signature, Todd discussed options and sending Plan 5 on it. Planning to have July Meeting, 7/08/20 at Union Hall.
